

# Step by Step Guide to Segregate Waste at Home

[illegible]

**MIXED WASTE  
= GARBAGE**

**UNMIXED  
WASTE =  
USEFUL  
RESOURCES**

# Types of Waste at Home

**WET  
WASTE**

**DRY  
WASTE**

**INERT  
WASTE**

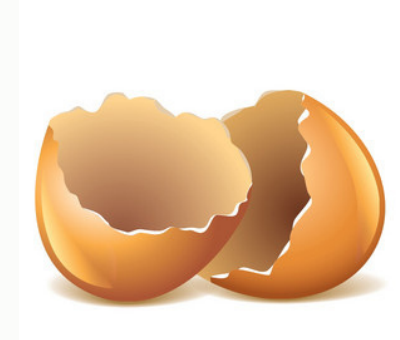

# Wet Waste

- Vegetable/fruit peels
- Cooked food/Leftovers

- Tissue paper soiled with food
- Dried flowers/ weeds/ garden leaves

- Fruit seeds
- Tea bags/Coffee grinds
- Egg shells

# Dry Waste

- Paper
- Cardboard
- Plastic bags
- Plastic bottles
- Pipes

- Glass bottles
- Wood
- Plastic wrappers
- Multi Layer Packaging

- Metal objects
- Aluminium Cans
- Food containers
- Tetra Pak
- Paper board

# E-Waste

- Large household appliances (refrigerators/ washing machines, dishwashers)
- Small household appliances (toasters, coffee makers, irons, hairdryers)

- IT equipment (computers, mobile phones, laptops, printers)
- Consumer equipment (TV, stereo, electric toothbrush)
- Lighting equipment (fluorescent lamps)

# Steps to segregate waste at home

## Step 1

Do not mix waste. Keep separate containers/ bags for Paper, Metal, Plastic, Glass, E-waste and Wet Waste.

## Step 2

Wash glass and plastic bottles of oil, juice, shampoo, plastic containers of yogurt, sour cream, jam, ice cream with detergent and running water and dry before putting into the respective glass and plastic waste bins.

## Step 3

Empty all plastic grocery bags, wraps of bread, zipper bags, chocolate, biscuit and chips wraps off food residue, wash and dry before storing.

## Step 4

Empty cardboard food, cereal boxes, juice and milk cartons, paper cups off food residue, clean with a dry cloth and flatten before storing. Tear hardcover of books and store with cardboard.

## Step 5

Stack magazines, catalogs, phone books, story books in a dry place for recycling. Remove all book covers with plastic lamination.

## Step 6

Store together in a dry bin white office paper, newspaper, colored office paper, shredded paper, white computer paper

## Step 7

Keep e-waste in a covered box and dry place away from children and pets. Tie wires neatly and remove all batteries from electronic devices before storing

# WHY RECYCLE?

- Lesser waste is filled in land or burned
- Offsets the need to extract natural resources
- Helps domestic economy by creating local sources of materials
- Saves energy

**Give Your Segregated & Clean  
Waste For Recycling To  
Certified Recyclers with a  
Pollution Control Board Certificate**
